RE: E. 1ST STREET INTERCHANGE RECONSTRUCTION PROJECT
PROGRESS REPORT NO. 19
S&A PROJECT NO. 109.0051.01-19

Dear Mr. Moritz:

This is the nineteenth progress report for the above referenced project and covers work through July 15, 2010. Work through this period includes preparing cross sections, drainage calculations, culvert and storm sewer design, construction staging design, entrance layout and design, identifying easement needs, preparing the bridge TS&L plans, submitting the temporary construction easement request for the 4(F) property to the Iowa DOT Office of Location and Environment and continuing the environmental documentation process.

We have scheduled the field exam with the DOT for August 27, 2010. We will also be meeting with City staff on Wednesday to review Field Exam plans, preliminary staging, and storm sewer layout. We will address and/or incorporate any comments that result in the meeting into the Field Exam plan set.

We look forward to continuing working for the city and with you on this important project. Should you have any questions on this update, please feel free to contact me. We will be in attendance at the August 2, 2010, council meeting to answer any questions regarding this invoice.

Sincerely,

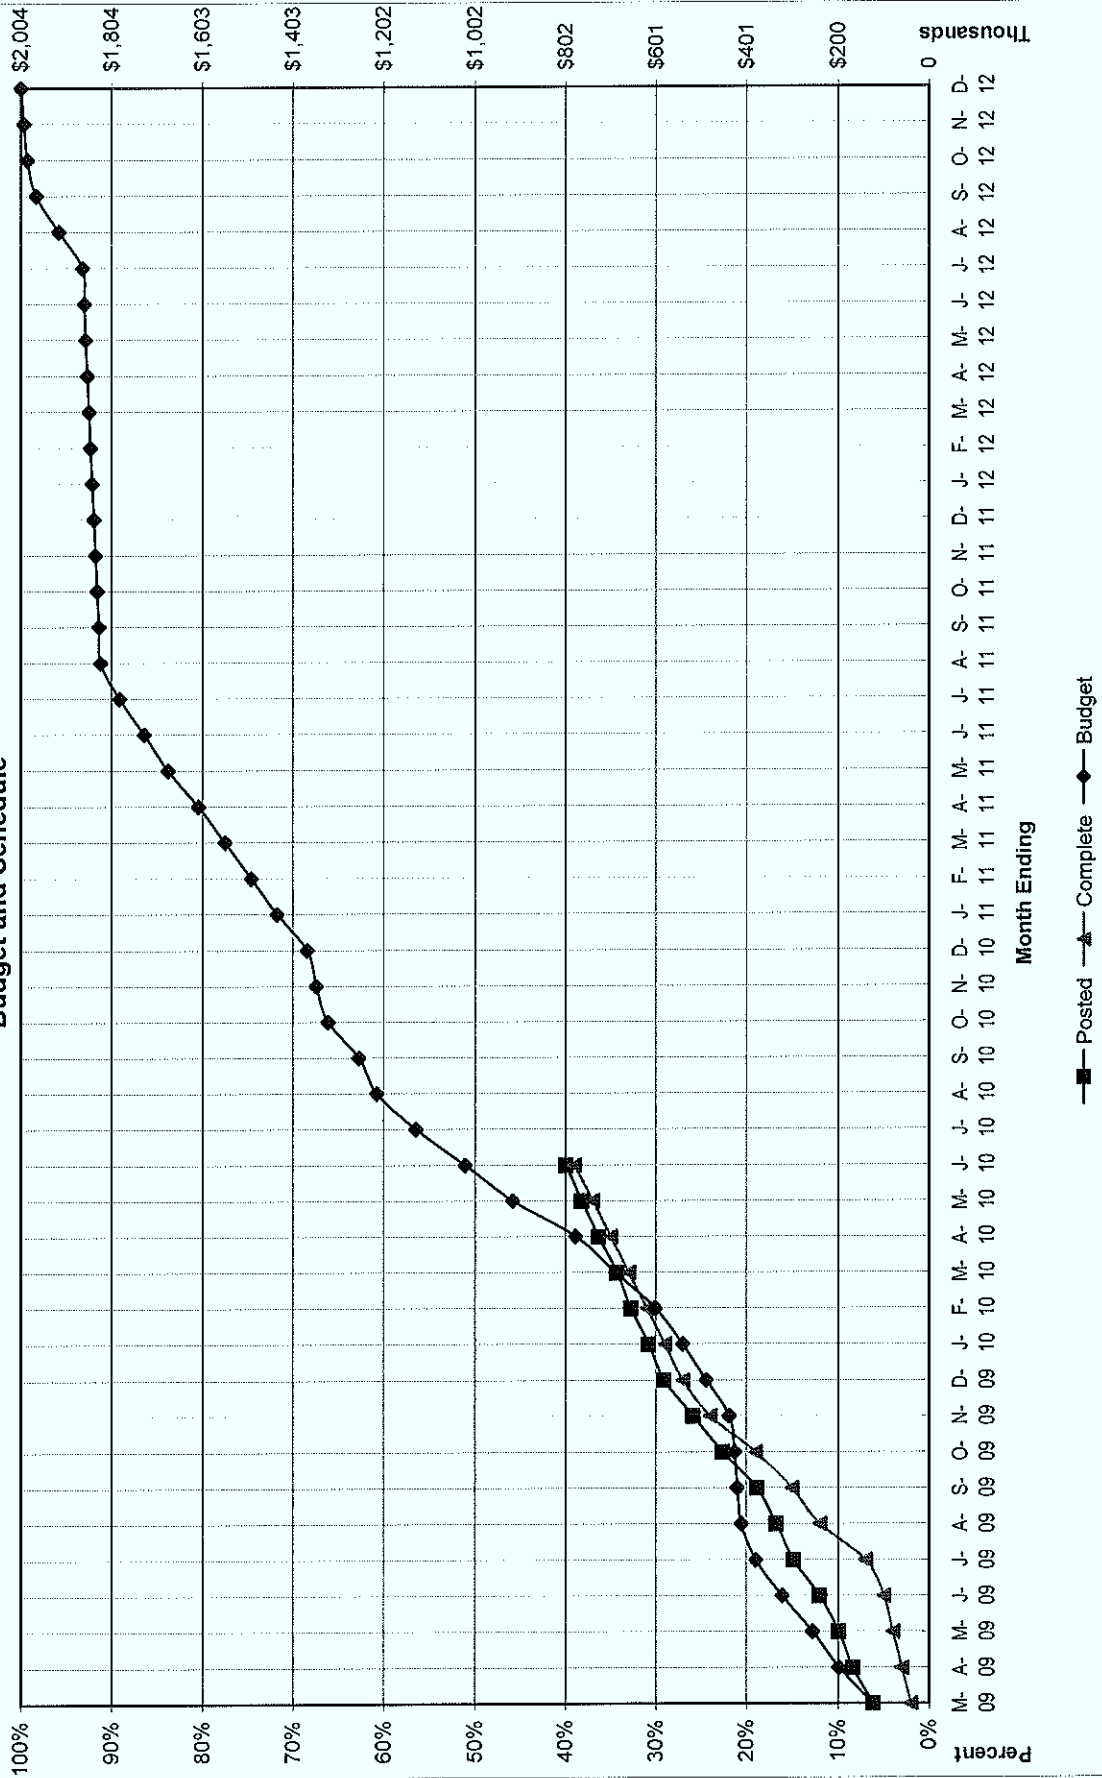

SNYDER & ASSOCIATES, INC.

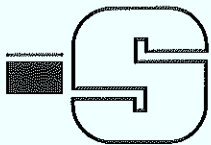

Mark A. Land, P.E.
Project Director
